

FIAMC at World Youth Days - Lisbon

16 March 2023

FIAMC, March 16th, 2023

FIAMC will once again be present in the World Youth Days (WYD). We aim to be closer to medical students and our younger colleagues. They are the future of our National Associations and of our World Federation. This year we are preparing two meetings for WYD Lisbon 2023 :

- **Bootcamp 'Tirocinium AD MMXXIII'**: July 28 – July 31.
- **III Young Catholic Doctors International Meeting**: August 2nd.

Tirocinium shall be the First International Medical Students Leadership Bootcamp promoted by FIAMC uniting the expertise of CMA Youth Sections from USA, Portugal, Croatia, Netherlands and Brazil.

We invite each national Catholic Medical Association to nominate two students to join our Tirocinium. The president or a director of the CMA should write a simple recommendation letter to be attached to these students application form. If possible, we ask you to send the names of the two nominees to the e-mail societas.lucae@gmail.com until March 26th. If your CMA does not have a student to nominate, we would ask you to share and promote the event locally so interested students can apply directly.

If you have any further questions about the Tirocinium event or application process, please contact us at societas.lucae@gmail.com.
