

US Bishops further clarify Church's position on Covid-19 vaccine

14 December 2020

Vatican News, 15 december 2020

US Catholic Bishops release a new statement further clarifying the Church's position regarding the COVID-19 vaccines that are currently available. They conclude that vaccination against COVID-19 can morally be justified, although all Catholics must continue convincing pharmaceutical companies that the development, production and distribution of COVID-19 (and other) vaccines must occur without any connection to abortion.
